2. In view of the above, following security measures are requested to be adopted, so as to not only ensure uniformity amongst all but also making sure a fool proof security is afforded :-

a. Passive Security Measures:-

(1) Foresight and forward planning: - Whilst being fully aware of their respective activities, Security Officer of the concerned Exploration & Production Company shall intimate KPOGCL, in writing, complete details of their intended move, at **least one month in advance** thereby affording the latter the opportunity to plan a well coordinated Security. The said intimation to comprise the following:-

(a) Date, time and nature of move:- As already stated, complete details of the intended move must be intimated to KPOGCL, in writing, **at least one month in advance**. Furthermore, other essential details like the nature of move i.e. whether it is the establishment of camp or shift of camp from point A to B within Khyber Pakhtunkhwa **OR** it is the movement of rigs from point A to B etc must also be specified along with number of vehicles employed and brief details of personnel & equipment accompanying. However, it is strongly recommended that complete secrecy must be maintained by rendering the said information on "**need to know basis**" and that too delivered through the **most secure means of communication**.

- (b) **Details of Routes used**:- Elaborate details of the intended routes to be used should be exhibited through **sketches/sharing of coordinates** followed by personal liaison & coordination conferences with KPOGCL's concerned Official.
- (c) **Taking local Community on Board through Community Development**:- Complete details of the measures to be rendered, to KPOGCL, of the efforts of the Community developers and Security Officers, who are expected to have already taken the community on board, before undertaking such moves, through the following said measures:-
- (1) Holding jirgas with the elders of the area, en-route thereby getting them and ultimately the local masses, on board.
 - (2) Intimating the pulse of the local masses en-route, as learnt from own experiences and render any other information of Intelligence value thereby suggesting the Modus Operandi to be adopted while dealing with the said locals.
 - (3) Judicious expenditures of Social Welfare Funds
 - (4) Issues being sub- judice with locals pending adjudication in any court of law and steps taken to resolve them on priority and that too before assuming the move. Furthermore, ^{steps} taken to resolve the genuine grievances of the locals.
 - (5) Any other action deemed necessary/fit to amicably iron out centrifuges en-route.

b. **Active Security Measures:-** Basing on the successful obtainment of above measures, a well thought out/conceived Security plan (Risk Assessment/Tactical Appreciation) shall be evolved with the connivance of Divisional/District Administration & Police, as follows:-

(1) **Arrangement of Joint Security Evaluation Team (JST) by**

KPOGCL through respective DPO:- JST, comprises

concerned District Police Official, concerned District Administrative Official, PAK Army Official, KPOGCL's concerned Security Official and client Exploration and Production/Services Company's Official who all carry out a Joint Security Evaluation of all the Exploration and Production of Oil and Gas related activities, as dictated vide the SVEP act 2015 (Sensitive, vulnerable, establishments, places). The said JST, after having carried out a thorough reconnaissance of the area, shall evolve a well thought out/conceived Security plan (Risk Assessment/Tactical Appreciation), on the following lines:-

(a) Establishment of a Central Control Room and Reporting/Check points, at suitable places all along the route having all available means of communication i.e. wireless, land lines, Cells, e-mail and fax etc during the entire duration of move.

(b) Arrangement of a well equipped Advance Mobile Guard, Flank Mobile Guard, Integral Mobile Guards & Rear Mobile Guard within the convoy.

(c) Placement of Quick Reaction Force and Reserves at appropriate places.

(d) Sharing following essential terrain & hostile forces' information prior to the commencement of move, for convoy's inmates information and further necessary action:-

(1) Length and classification of all the major routes from the point originating from each DPO's Area of Responsibility till the destination.

(2) Location and description of bottle necks en-route.

(3) Likely ambush sites and known guerilla areas en-route.

(4) Identification of alternates and laterals en-route.

(5) Location of friendly forces en-route.

(6) Obstacles en-route.

(7) Important Communication Centres (cities, villages, towns, trade centres) en-route.

(e) **Mode of Move & Contingency Planning** :- Depending on own Security plan (Risk Assessment/Tactical Appreciation) while keeping the Terrain Configuration and Enemy Strength, Composition, Disposition & Likely Actions, in view, following mode of move & contingency

planning may be spelled out and if possible rehearsed, as well:-

- (1) Dividing the whole convoy in manageable packets and placement of Advance Mobile Guard, Flank Mobile Guard, Integral Mobile Guards & Rear Mobile Guard within it.
 - (2) Varying the length of convoy and adapting other more elaborate/adequate/chalked out/well rehearsed safety measures while keeping in view, the peculiar Terrain and Enemy Situation.
 - (3) Actions to be taken when ambushed.
 - (4) Actions to be taken during riots or other such like unexpected anomalies i.e. road blockages due to any reason.
 - (5) Action of Quick Reaction/ Reserve Force
 - (6) Plan for evacuation of casualties.
 - (7) Action to be taken upon the breakdown of some vehicle
 - (8) Subsequent respective action for each anomaly occurred.
 - (9) No such movements to take place, at night
 - (10) Any other action deemed fit to cater for.
- (f) **Calculation of Overall Force, Vehicles and Specialized Equipment required:** - Basing on the above, render KPOGCL, an estimate of the Overall Force, Vehicles and Specialized Equipment required to cover the whole move.
